

April 2015 - A complete review and new strategy for an organisation

In need of refreshed strategy to carry the business forward, this Design and Construction company called on JCMA Consulting to undertake a review of their sales, logistics and operations and assist them in implementing the change required to increase its profitability and operational capability.

This is a work in progress as we partner with the organisation on an ongoing basis. This has been a considerable body of work over many months, I am pleased with our progress thus far [Charles McNena – JCMA].

The capability brought to this substantial body of work, the ongoing relationship, expertise and commitment of JCMA gives me every confidence we will achieve the goals set for our business in the years ahead [Client Feedback]
